## Biographic Questionnaire for Alcoholics

### Instructions

The questionnaire consists of statements concerning your biography. As everyone has their own opinions about themselves and their lives, there can be no right or wrong answers to these statements.

The test is only useful if you answer sincerely. You may rest assured that the data will be treated confidentially.

Some statements may be difficult to answer. Please always give the correct answer. If you want, you can give additional information on a separate sheet of paper. Don't omit a statement even if it should be difficult to answer.

For each and every statement there are two modes of answering: "yes" and "no". If you want to affirm a statement, you mark the item "yes" and if you want to negate a statement you mark the item "no".
